Explain any variances over +/-10% (As shown on budget pages F-2 and F-4 explain the reason for changes for each revenue and appropriation changing more than 10%) for each individual revenue and appropriation line item. Explanations of variances should include a description of the reason for the increase/decrease in the budgeted line item, not just an indication of the amount and percent of the change. Attach any supporting documentation that will help to explain the reason for the increase/decrease in the budgeted line item.
2. Describe the state of the local/regional economy and how it may impact the proposed Annual Budget, including the planned Capital Budget/Program. (Example Consider New Development projects such as Housing /Commercial projects impact on the Authorities expenses or revenues)
3. Describe the reasons for utilizing Unrestricted Net Position in the proposed Annual Budget and or Capital Budget, i.e. rate stabilization, debt service reduction, to balance the budget, etc. If the Authority's budget anticipates a use of Unrestricted Net Position, this question must be answered.

Identify any sources of funds transferred to the County/Municipality as a budget subsidy or a shared service payments, pilot payments, or other types of contracts or agreements (Example to provide police services to the Authority etc. and explain the reason for the transfer (i.e.: to balance the County/Municipality budget, etc.).

If there exists an accumulated deficit from prior years' budgets (and funding is included in the proposed budget as a result of a prior deficit) explain the funding plan to eliminate said deficit (N.J.S.A. 40A:5A-12). If the Authority has a net deficit reported in its most recent audit, it must provide a deficit reduction plan in response to this question.

(Prepare a response to deficits in most recent audit report pertaining to Deficits to Unrestricted Net Position caused by recording Pension and Post-Employment Benefits liabilities as required by GASB 68 and GASB 75) and similar types of deficits in the audit report. (If no changes to fees or rates indicate (Answer as "Rates Are Staying the Same")

The SMMUA does not utilize a rate structure in allocating contract operation fees or debt service and administration costs to the five member communities, but rather a percentage of the costs are allocated to each community based on the percentage of

treated water allocated to each municipality and percentage of linear feet of transmission system within each municipality as follows:

	Percentage Costs Allocated to Treatment Plant	Percentage Costs Allocated to Transmission System
Brielle	14.54%	33.00%
Sea Girt	1.29%	7.00%
Spring Lake	9.05%	22.00%
Spring Lake Heights	12.12%	20.00%
Wall Township	63.00%	18.00%

2021 (2021-2022) CAPITAL BUDGET/PROGRAM MESSAGE

Southeast Monmouth Municipal Utilities Authority

FISCAL YEAR: FROM: 11 | 21 TO: 12 | 21

1. Has each municipality or county affected by the actions of the authority participated in the development of the capital plan and reviewed or approved the plans or projects included within the Capital Budget/Program (This may include the governing body or certain officials such as planning boards, Construction Code Officials) as to these Projects?

The member communities of the Southeast Monmouth Municipal Utilities Authority participated in the development of the capital plan and approved a 20-year asset management plan in July 2008 which includes all projects identified within the CY2020 Capital Budget/Program. The SMMUA, whose board is made up of a representative of each municipality reaffirmed approval of the capital program at an open public meeting of the board on September 9, 2010. Additions are made to the plan annually and the Board approves these changes as part of the annual adoption of the Authority's budget and Capital Program.

3. Has each capital project/project financing been developed from a specific capital improvement plan or report; does it include full lifecycle costs; and is it consistent with appropriate elements of Master Plans or other plans in the jurisdiction(s) served by the authority?

Each capital project and subsequent project financing has been developed from a specific engineering study which considers full lifecycle costs, and is consistent with appropriate elements of Master Plans and/or other plans in the jurisdictions served by the authority.

3. Has a long-term (5 years or more) infrastructure needs and other capital items (Vehicles, Equipment) needs assessment been prepared?

Each capital project was identified in an asset management plan contracted by the Authority's water treatment plant operator and performed in 2008. The asset management plan reviewed every asset of the treatment plant and identified improvement or replacement needs over a 20-year cycle through the year 2027. The asset replacement or improvement schedule was determined by way of a priority system measuring parameters which included how close the asset was to the end of its useful life, how crucial the asset was in maintaining water quality standards, how much was currently being expended to repair specific assets is contained within a capital project report, etc. Each asset was identified as a renewal/rehabilitation, an enhancement or a replacement. The projected costs included engineering and considered inflation.

4. If amounts are on Page CB-3 in the column Debt Authorizations. Indicate the primary source of funding the debt service for the Debt Authorizations (Example Rate Increases Funding or Other sources)

5. Please indicate which capital projects/project financings are being undertaken in the Metropolitan or Suburban Planning Areas as defined in the State Development and Redevelopment Plan.
